

Lockers can transform your locker rooms and office environments into efficiently organized spaces. When you are dealing with possibly humid environments, lockers made out of ABS plastic are the best choice.

With the variety of color options we offer, and your choice of double-panel steel doors, or dual layer tempered glass doors, you can easily find a style of locker that matches the rest of your decor.

Double tier lockers

Color options: ● ● ● ● ● ● ● ● ● ●

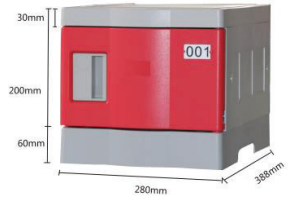

Size: 978mm x 436mm x 1940mm (LxWxH)

Features:

Our lockers are made of engineering grade ABS (Acrylonitrile Butadiene Styrene) with nylon hinges. They look great on the outside and are spacious on the inside.

- ABS lockers are fire retardant, the material is rust proof and scratch resistant.
- ABS is recyclable, strong, durable, lightweight and can be cleaned easily.
- multiple locking options: cam lock, keyless lock, coin return lock, RFID (digital) lock and padlock.
- modular and easy to install (mortice and tenon joint, no screws / tools necessary)
